

European Network for Accreditation of
Engineering Education

Dr. Iring WASSER

Managing Director of ASIIN elected as new President of ENAAEE; New Administrative Council takes Office

The General Assembly of ENAAEE, the European Network for Accreditation of Engineering Education, has chosen its new leadership. With overwhelming majority, **Dr. Iring WASSER was elected new President** on 24th February in Brussels. He succeeds Prof. Dr. Giuliano AUGUSTI from Italy, who headed the organization since its founding in 2006.

WASSER is the Managing Director of the German Accreditation Agency for Study Programs in Engineering (ASIIN) and has been Vice President of ENAAEE in the previous Administrative Council. His focus will be on fostering ENAAEE's visibility and political influence within the European Higher Education Area and beyond, promoting the significance of the "European Accredited Engineering Label" ("EUR-ACE") as a vital instrument to foster academic and professional mobility for European engineers as well as increasing stakeholder involvement, in particular the European business community.

The General Assembly also elected its governing body, the Administrative Council (AC) under the new ENAAEE Statutes/Bylaws, which foresee an increase of AC members from five to nine members. **As members were elected: Mr. Dirk BOCHAR** (FEANI – European Federation of National Engineering Associations); **Prof. Dr. Claudio BORRI** (UNIFI, Italy); **Mrs. Françoise COME** (SEFI – European Society for Engineering Education); **Mr. Denis McGRATH** (Engineers Ireland); **Mr. Juhani NOKELA** (TEK, Finland); **Dr. Ahmed Erbil PAYZIN** (MÜDEK, Turkey); **Prof. Dr. Yuri POKHOLKOV** (AEER, Russia); **Prof. Dr. Bernard REMAUD** (Commission des Titres d'Ingenieurs, France); **Prof. Dr. Alfredo SQUARZONI** (CoPI, Italy).

The new President and the members of the AC will take office as of 1 April 2012.

ENAAEE thanks the **outgoing AC members Messrs. BIRCH, CHUCHALIN, FEYO DE AZEVEDO and WAUTERS** and in particular the **outgoing President Prof. Dr. AUGUSTI** for his commitment and achievements for setting up the Network. AUGUSTI will continue being involved in ENAAEE as President of the new Italian engineering accreditation agency QUACING.
